

MBA is Your Place for Networking and Information Sharing

A lot has changed in this industry over the last few years. MBA recognizes that its facilitation of interaction amongst members of similar business models is a valuable member service. Our members want to pool their knowledge and resources and work together to face the opportunities and challenges unique to this sector.

NOW IS YOUR CHANCE TO GET CONNECTED.

Participation in a market-segment specific networking group is a great way to connect with and learn from mortgage lending executives who are facing similar challenges to yours.

Each of MBA's members-only networking groups are managed by expert MBA staff, but directed by leaders from the industry. This means that each group focuses on issues and topics that they, themselves, identify as important.

Some of our most popular groups are:

- Community Banks and Credit Unions
- Independent Mortgage Bankers
- Warehouse Lenders

Groups are open to leadership and senior management professionals at MBA member companies. Most groups meet regularly via phone and several times a year in person.

For more information contact MBA Member Services at membership@mba.org or (202) 793-6222 (select option 1)
