Results for Period from November 1, 2021 through November 30, 2021

Release Date: December 20, 2021
Highlights as of November 30, 2021

- Total loans in forbearance as percent of servicing portfolio volume (#) as of November 30, 2021:
  - Total sample: 1.67 percent from 2.06 percent the previous month.
  - IMB sample: 1.94 percent from 2.28 percent the previous month.
  - Depository sample: 1.52 percent from 2.02 percent the previous month.

- Monthly forbearance exits as a percent of servicing portfolio volume (#) decreased to 0.52 percent in November from 0.72 percent in the months of September and October.

- Total loans that were current (not delinquent or in foreclosure) as percent of servicing portfolio volume (#) rose to 94.58 percent from 94.32 percent the previous month.
  - The five states with highest total loans that were current as percent of servicing portfolio: ID, WA, UT, CO, OR.
  - The five states with lowest total loans that were current as percent of servicing portfolio: LA, MS, NY, WV, OK.

- Total completed loan workouts from 2020 and onward (repayment plans, loan deferrals/partial claims, loan modifications) that were current as percent of total completed workouts in servicing portfolio declined to 83.69 percent from 84.04 percent the previous month.

- For the month of November, call center volume as a percent of servicing portfolio volume (#) increased to 29.9 percent from 27.6 percent the previous month. Call Center average speed to answer increased to 2.5 minutes from 1.9 minutes the previous month. Abandonment rates increased to 6.3 percent from 4.9 percent the previous week. Handle times remained flat at 8.0 minutes.

About This Month’s Loan Monitoring Survey (LMS)

- Covers period November 1, 2021 through November 30, 2021.
- Previous data (March 2020 through October 2021) derived from MBA’s Weekly Forbearance and Call Volume Survey.
- Volume based on units (loan count, # forbearance requests, call volume) not dollars. Rates are not seasonally-adjusted.
- New data elements for the LMS include: % of loans current by product type, % of loan workouts current by product type, % of loans current by state

Participating servicers for this month’s survey:
- Total Sample (includes 2 subservicers not included in breakouts): 42
- Depositories: 19
  - Independent Mortgage Companies (IMBs): 21

Includes data on 36.5 million loans serviced as of November 30, 2021, representing 73 percent of the first mortgage servicing market.

MBA’s Quarterly National Delinquency Survey (NDS), conducted since 1979, provides more detailed performance data by state including 30-day, 60-day, 90+-day delinquencies, foreclosure starts and loans in foreclosure based on quarter-end. Includes data on 39.5 million loans serviced. The next release with 4th quarter results will be February 10, 2022. For more information, go to [www.mba.org/nds](http://www.mba.org/nds).
Survey Servicing Volume Share by Investor Type and Product Type (%): 36.5 Million Loans

By Investor Type:
- Fannie/Freddie: 57.16%

Reasons for Forbearance Exit Explained

**Cancellation/Opt Out - Borrower Current, Kept Making Payments without Loss Mitigation:** Borrower entered into forbearance plan but continued to make scheduled monthly payments on their own (without loss mitigation such as a payment deferral) and therefore did have any past due amounts that needed to be repaid upon exiting forbearance.

**Borrower Reinstatement:** Past due amounts (arrearages) are paid back in a lump sum at the end of the forbearance period or when exiting forbearance.

**Repayment Plan:** Past due amounts are added on to existing mortgage payments over several months, in order to bring the existing mortgage current. As a result, borrower monthly payments to servicer may increase from pre-pandemic payment levels until past due amounts fully paid.

**Payment Deferral/Partial Claim:** Payments that were not made by the borrower are moved to the end of the loan term to be paid upon home sale, refinance or at maturity. This allows the borrower to resume making their regular monthly payments as before, without needing to "catch up" on missed payments.

**Modification or Combo (Modification and Payment Deferral):** A permanent change is made to the terms of an existing loan in order to make monthly payments more affordable and allow the homeowner to stay in their home. It may involve a reduction in the interest rate, an extension of the length of time for repayment, and/or a different type of loan or loans. This category also includes trial modifications.

**Loan Paid Off:** Borrower either pays off the loan by selling their home, or refinances - thus receiving a completely new mortgage with new terms, interest rates and monthly payments.

**Cancellation/Opt Out - Borrower Not Current, No Loss Mitigation in Place:** Forbearance exits due to cancellation or expiration of forbearance period, in which the borrower has past-due amounts and does not yet have a loss mitigation plan in place yet. This may occur because the borrower did not make contact with their servicer to ask for a forbearance extension or had no more eligible months of forbearance. This may also occur when the forbearance period has expired and the borrower has not provided all of the necessary documentation for a loss mitigation option to be determined yet.

**Other, such as Short Sales, DILs:** All other reasons for forbearance exit such as short sales (sale of home for less than the balance remaining on the mortgage) or deed in lieu (ownership of property transferred to owner of mortgage in exchange for release of loan and payments).
